EDUCATION

Somaiya Vidyavihar University

Aug. 2022 – May 2025

Bachelor of Computer Applications

Mumbai, India

- **GPA: 8.5/10.0**
- **Relevant Coursework:** Object-Oriented Programming, Database Management Systems, Computer Networks, Software Engineering, Cloud Computing, Artificial Intelligence.

WORK EXPERIENCE

Algorisys Technologies Private Limited

Jul. 2025 – Present

Associate Software Engineer

Mumbai, India

- **HRMS Platform:** Engineered features for a comprehensive attendance and payroll platform, enforcing strict backward-compatibility and clean code practices to guarantee zero-downtime deployments for critical financial modules.
- **Distributed ETL Pipeline:** Architected a high-throughput Go backend and React Router v7 frontend capable of processing millions of rows of data; engineered custom adapters—including TM1 and PostgreSQL integrations—for seamless data extraction across distributed client servers.
- **Contract Lifecycle Management (CLM):** Developed a full-stack application utilizing a SolidStart frontend and a Go REST API, integrating directly with the ETL pipeline to ingest multi-source data and automate complex business calculations.
- **Linux Infrastructure:** Managed end-to-end Linux server provisioning and application deployments, establishing robust, production-ready architectures focused on fault tolerance, code reusability, and scalable system design.

Algorisys Technologies Private Limited

Nov. 2023 – Jul. 2025

Software and AI Engineering Intern

Remote

- Developed projects using the MERN stack, including a to-do list, AI-powered note-taking app, and mind mapping tool, gaining hands-on experience with CRUD operations, API integrations, and computer graphics. Learnt about creating a graphics engine from scratch in the C programming language.

SOFTWARE PROJECTS

[CircaCal](#)

- A very SIMPLE and APPROXIMATE calorie tracker.

[Fluxroom](#)

- A simple collaborative text editor with live chat built using websocket.

[tm1go](#)

- TM1go is a go package that wraps the TM1 REST API in a simple to use library to perform operations such as extracting data into a csv file, inspired by tm1py.

[AIdeas](#)

- A drawing and note-taking app that leverages AI APIs to respond to user input and enhance creativity.

SKILLS, TECHNOLOGIES & INTERESTS

- **Skills:** Full-Stack Development, System Design & Architecture, REST API Development, Data Integration (ETL), Server Administration, OOP.
- **Technologies:** Go, TypeScript/JavaScript, SAP ABAP, React.js, Next.js, SolidStart, Node.js, PostgreSQL, MongoDB, Docker, Linux (Ubuntu/Fedora), Git.
- **Interests:** Computer Hardware, Custom Peripherals, Competitive Gaming, Strength Training, Audiophile Equipment (IEMs), Stand-up Comedy.
